key words

hospitality services, tourism, promotion of services, persons with disabilities, accessible environment

Today, tourists with disabilities are becoming an increasingly important segment of consumers in the tourism services market, and the task of adapting it to the requirements of this particular category of customers is becoming natural and relevant. An important condition for the success of such adaptation is the introduction of digital technologies. The digital service significantly expands the accessible environment for persons with disabilities in the context of the development of inclusive (accessible) tourism. We analyzed digital technologies integrated into inclusive tourism, gave examples of the use of digital technologies in domestic and international accessible tourism. We believe that the introduction of digital technologies in inclusive tourism is one of the priority and most important digital solutions when creating an accessible environment in the hospitality industry. The new industrial revolution is based on the promotion of a system of sustainable connections between participants in the digital format in the tourism industry, thereby expanding the horizons of affordable tourism.

Как подготовить статью для журнала «Компетентность»

Оригинал статьи и аннотацию к ней необходимо передать в редакцию в электронном виде (на магнитном носителе или по электронной почте komp@asms.ru). При передаче информации по электронной почте желательно архивировать файлы.

В названиях файлов необходимо использовать латинский алфавит. Допускаемые форматы текстовых файлов — TXT, RTF, DOC. Допустимые форматы графических файлов:

- графики, диаграммы, схемы — AI 8й версии (EPS, текст переведен в кривые);
- фотографии — TIFF, JPEG (RGB, CMYK) с разрешением 300 dpi.

К каждой статье необходимо приложить сведения об авторах — фамилия, имя, отчество, ученая степень, ученое звание, место работы и должность, телефон служебный и домашний, адрес электронной почты.
