key words

national system of accreditation, requirements, accreditation criteria, uniformity measurements ensuring, risk management, risk and opportunity management system

I have examined the issues of applying a risk-based approach in the activities of accredited persons for the right to carry out the work in the field of the measurements uniformity insurance, which includes verification and calibration of measuring instruments in accordance with the accreditation criteria and GOST ISO / IEC 17025–2019. I have analyzed certain positions of the standard General requirements for the competence of testing and calibration laboratories and have presented an option for implementing the requirements for risk and opportunity management in accordance with accreditation criteria. In the given article, I have emphasized that testing and calibration laboratories, metrological services have to develop and implement a risk and opportunity management system by integrating it into the QMS of an accredited person, and act based on risk management, taking into account of the specific features uniformity measurements ensuring.

Как подготовить статью для журнала «Компетентность»

Оригинал статьи и аннотацию к ней необходимо передать в редакцию в электронном виде (на магнитном носителе или по электронной почте komp@asms.ru). При передаче информации по электронной почте желательно архивировать файлы. В названиях файлов необходимо использовать латинский алфавит. Допускаемые форматы текстовых файлов — TXT, RTF, DOC.

Допустимые форматы графических файлов:

- ▶ графики, диаграммы, схемы — AI 8-й версии (EPS, текст переведен в кривые);
- ▶ фотографии — TIFF, JPEG (RGB, CMYK) с разрешением 300 dpi.

К каждой статье необходимо приложить сведения об авторах — фамилия, имя, отчество, ученая степень, ученое звание, место работы и должность, телефон служебный и домашний, адрес электронной почты.
